

FINAL PROJECT DELIVERY AND ACCEPTANCE CERTIFICATE

Date: July 27, 2026

Project: Artisan Shop E-Commerce Platform

Developer / Lead Software Engineer: Evelyn Villarreal

Client / Stakeholder: Guadalupe Salgado

This document serves as the formal record of the final delivery and acceptance of the **Artisan Shop E-Commerce Platform** project, which consists of a Full-Stack web application (Next.js Frontend, Node.js Backend, and PostgreSQL database) successfully deployed on AWS infrastructure (Elastic Beanstalk and CloudFront).

It is hereby certified that, following the project review meeting held on July 12, 2026, the system meets all initially agreed-upon technical and business requirements. Furthermore, it is confirmed that the change requests and enhancements requested during said session have been successfully implemented and deployed to the live production environment, specifically including:

1. **Frictionless Search:** Implementation of real-time search bars in the product catalog and order administration dashboard to filter records instantly without page reloads.
2. **Local File Uploads:** Enabling direct upload of product images (.png, .jpg) from local devices, utilizing an efficient Base64 conversion strategy for secure database storage.
3. **Email Integration (Nodemailer):** Configuration of automated email notifications for successful user registrations and order confirmations.

By signing this document, the Client, **Guadalupe Salgado**, declares having fully reviewed the platform's functionality and expresses complete satisfaction with the system's performance, modern aesthetic, administrative tools, and the overall quality of the delivered product. The project is hereby deemed **RECEIVED AND ACCEPTED** in its entirety.

Signatures of Agreement:
